

## Patton and Frascold

Patton Ltd expands its product range and customer offering with alliance to Italian compressor manufacturer **FRASCOLD**.

Experience, quality, innovation. Like Pattons these are the characteristics which have enabled **FRASCOLD** to achieve and consolidate a leading position in the air conditioning and refrigeration compressor worldwide market, both commercial and industrial.

### **Experience.**

Patton is proud to partner a company with over 70 years experience and substantial knowledge of world market activity and application of compressors for refrigeration and air conditioning.

### **Quality.**

The product range exhibits high quality standards achieved through the extensive use of the best materials and strict quality tests which results in premium reliability and efficiencies.

### **Innovation.**

The extended use of world-class engineering and design tools results in a production of refrigerating compressors with innovative solutions meeting the challenge of a market continuously in evolution.

Frascolds full range of reciprocating and screw compressors is now available at Pattons. Contact your local branch today.
